

# Lokakarya *Sustainable Urban Mobility:* Mewujudkan Pembangunan Kota Rendah Emisi (Bagian dari kegiatan *One Planet City Challenge 2017*)

Jakarta, 14 Desember 2017

## **Kaohsiung Strategies for the Future of Urban Mobility**

### **We:**

- 1** Plan our cities and their mobility together
- 2** Prioritize people over vehicles
- 3** Support the shared and efficient use of vehicles, lanes, curbs, and land
- 4** Promote equity
- 5** Support fair user fees
- 6** Work towards integration and seamless connectivity
- 7** Lead the transition towards a zero emission and renewable energy transport future
- 8** Support that autonomous vehicles (AVs) in urban areas should be operated only in shared fleets
- 9** Protect the air space of our cities
- 10** Apply sustainability principles for moving goods: green freight and ecologistics
- 11** Engage with stakeholders
- 12** Prepare our local governments for mobility in the future
